

Government College for Women Bahadurgarh

INSTITUTIONAL DEVELOPMENT PLAN

Government College for Women strives to provide quality education to girl students and enhance their knowledge and skills by providing them adequate learning facilities in a healthy environment. For which the college works as per the institutional plan framed to achieve mission of the college. Following are the key points of institutional development plan of the college:

- Teaching should be complemented with modern teaching aids to make content easy to understand for students.
- Along with teaching-learning process, focus should be on co-curricular activities for all round development of students which may be carried out in two ways. All teaching departments should organise departmental activities to make teaching-learning process interesting. Other co-curricular activities may be organised by different cells to sensitize students about important issues.
- Infrastructural development should always be the priority for the college.
- Safety of students is an important issue in girls' college therefore, installation of CCTV camera be taken on top priority.
- Use of ICT in teaching-learning process should be encouraged.
- Along with academics physical fitness and mental health of students should also be taken care of. For this purpose, various extension lectures, workshops or camps may be organised under different cells.
- To develop ethical and moral values in students should be the part of education system.
- Students should be sensitized against gender biasedness and a sense of awareness among them should be raise.
- Faculty should be encouraged to improve their profile by indulging in research and joining various Faculty Development Programmes.
- Emphasis should be laid on development of students' communication and interpersonal skills.
- The college should ensure development of sustainable environment and adopt good practices like planting more trees, proper disposal of waste, arrangement of water and feed for birds.
