Cell
Organizes**

**Multidisciplinary National
Seminar**

**Under the aegis of
Department of Higher
Education, Haryana
On
"Education 4.0: A Blend of
Artificial Intelligence and
NEP 2020"**

January 24, 2026

About the College:

Government College for Women, Bahadurgarh which was established in 2014 offers a safe and nurturing environment for young women. Affiliated with MDU Rohtak, the college provides excellent academic facilities and education in Arts, Commerce, and Science. Our mission is to empower students to build a strong foundation for their future, instilling good moral and ethical values, and social responsibility.

About the Seminar:

"Education 4.0: A Blend of Artificial Intelligence and NEP 2020" is highly relevant and timely, as it addresses the transformative impact of Artificial Intelligence and the National Education Policy 2020 on the education sector in India. With the recent introduction of NEP 2020, it is crucial to explore its implementation and integration with AI-driven education.

This seminar provides a platform for educators, policymakers, and industry experts to share insights, best practices, and concerns, shaping the future of learning and the skills of upcoming generations. By exploring this topic, the seminar aims to contribute to the development of a forward-thinking education system in India, preparing students for success in a rapidly changing world. The outcome of this seminar will be instrumental in shaping the future of education, making it more accessible, personalized, and effective.

Objectives of the Seminar:

- To understand the concepts of Education 4.0 and AI-driven learning
- To explore the implications of NEP 2020 on education in India.

- To identify strategies for effective integration of AI in education
- To foster collaboration and knowledge sharing among educators, policymakers, and industry experts

Sub Themes

- AI-powered personalized learning: Exploring the potential of AI in tailoring education to individual needs.
- NEP 2020: Understanding the policy framework and its implications for higher education.
- Future of work: Preparing students for an AI-driven workforce.
- Digital literacy: Equipping students with skills for a digital age.
- Intelligent tutoring systems: The role of AI in enhancing student learning outcomes.
- Adaptive assessments: Using AI to revolutionize evaluation methods.
- Virtual and augmented reality in education: Enhancing learning experiences.
- Teacher training in AI-powered education: Preparing educators for the future.

- Ethical considerations in AI-driven education: Ensuring responsible innovation.
- Inclusive education: Leveraging AI to support diverse learning needs.
- AI-assisted research and innovation: Fostering a culture of inquiry.
- Cyber security in educational institutions: Safeguarding against threats.
- AI-driven student analytics: Informing data-driven decision-making.
- Collaborative learning in the age of AI: Redefining student engagement.
- The future of libraries: AI-powered knowledge management.
- The Changing role of teachers in the age of AI and NEP 2020.
- Artificial Intelligence vs. Ethics and Morality.
